

We have just learned of a tragic event at the Chautauqua Center, but want to assure you that our staff members are safe and the facility is secure. It appears that a non-student has been the victim of a shooting. Dr. Richburg is on his way to the site and local law enforcement officials have the situation well in control.

You will undoubtedly hear more of this in the media, and we will attempt to keep you informed as we learn more. As usual Dr. Richburg and Sylvia Bryan will handle any press questions or other requests for information.

Be safe-

Jill
